

Build Ballard Greenways Box

We want the NW 58th St. greenway to be built on the original schedule (fall 2012).

However, if SDOT is determined to postpone it in order to conduct additional community outreach, we recommend:

1. Use the proposed community outreach time to also do outreach on the Ballard Greenways Square, i.e. 4 routes total
2. Have SDOT staff trained in community relations or hire professional outreach staff
3. Build NW 58th in 2013, and build the additional 3 routes on an accelerated timeline in 2013/14
4. Additional improvements for pedestrians. Curb ramps at all intersections with high pedestrian numbers and a high priority placed on installing curb ramps at the remaining intersections.
