Safe Routes to Transit
Seattle Neighborhood Greenways Priority Campaign
www.SeattleGreenways.org

Draw a circle around any light rail station or bus rapid ride corridor hub. Where are the carefully delineated greenways being constructed to support people who choose or need to safely walk or bike to transit? Federal Transit Administration guidelines encourage funding for safe and pleasant ways to access stations on foot or by bicycle.

Average time to:
Walk 1 mile~20 minutes
Bike 1 mile~7 minutes
