

Seattle Neighborhood Greenways Steering Committee. We are a volunteer coalition representing 16 neighborhood groups that identify, advocate for, plan, and activate a linked network of safe and healthy streets for all. Learn more at www.SeattleGreenways.org

Bob Edmiston, Madison Greenways, is a Renaissance man. After working for a number of Seattle tech companies he's turned his attention to Greenways. He assembles the citywide low stress maps from all neighborhoods and is learning GIS in the process. Bob is coordinating the Madison Greenways group which covers both Madison Park and Madison Valley, and serving on the Madison Park Community Council. You can find him commuting in the rain on one of his home-cobbled solar-human-electric hybrid bikes or assisting new groups get set up with their technology needs.

Bob Hall, Ballard Greenways, used to be a bike messenger and got enthusiastic about the idea of Greenways when he tried to encourage his girlfriend to bike with him around town. Bob managed the Ballard Greenways booth at May 2012 Summer Streets and is the citywide Greenways manager for our mailing lists. A software developer, Bob is developing into an incredible advocate for low stress user experience studies.

Cathy Tuttle, Wallingford Greenways is Seattle Neighborhood Greenways Director, a community activist and planner. After working for seven years for the City of Seattle planning the development of parks and neighborhood plans, she moved to the other side of table and built community groups and initiatives including 350 Washington State, Moving Planet Seattle, Transition Seattle, SCALLOPS (Sustainable Communities ALL Over Puget Sound), Sustainable Wallingford, Seattle Tilth Advocacy, and Spokespeople Rides. Cathy has been laughing ever since she received Sustainable Seattle's prestigious Happiness Award in 2012.

Dylan Ahearn, Beacon B.I.K.E.S. (Better Infrastructure Keeping Everyone Safe), is a daily cyclist to his work as a water quality hydrologist. Dylan is motivated to make Beacon Hill a great place to walk and bike for his two young children. He has been tireless building a Greenway coalition and promoting Greenways improvements in Beacon and citywide. An academic at heart, Dylan is a part-time geology professor able to put his clear ideas about Greenways to good use in eloquent public testimony and meetings with policy makers.

Kristen Lohse, NE Seattle Greenways, is a strategist and big picture thinker. She is also a landscape designer and urban planner who specializes in non-motorized planning and design. She is active in her children's school communities and biked to school this year with her enthusiastic kindergartener. A former vice-chair of the Seattle Pedestrian Advisory Board, Kristen serves in many other community groups as well as Greenways.

Michael Herschensohn, Queen Anne Greenways, is an historian with boundless energy and curiosity and expert in institutional development. Currently president of the Queen Anne Historical Society, Michael was the director of the Seattle Children's Museum, the Museum of History and Industry, and the Executive Director of Northwest Folklife for 10 years.

Robin Randels, PhinneyWood Greenways, is a bicycle education expert who teaches adults and children all over the region safe cycling techniques. Robin was a pioneer in family biking. Her adult children can testify family life, including vacations, was pretty much car-free. Robin also is a small business expert. She owned and managed two of the best pizzerias in Seattle for many years before selling them and making her love of bicycling her work.
